## THROUGH ALABAMA

John H. Thomas, of Wetumpka, Shoots Himself and Dies.

## HE HAD DRIVEN A SON FROM HIS HOME

The Parent Regretted His Act, but the Boy Refused to Come Back, Which Caused Remorse.

Montgomery, Ala., September 4.—(Special) Mr. John H. Thomas, one of the most prominent men of Wetumpka, Ala., committed suicide this afternoon by locking himself in his room and shooting himself through the head. He was proprietor of the leading hotel in Wetumpka and a prominent deacon in the Presbyterian church. Mr. Thomas recently, while under the influence of whisky, drove a devoted son from his house. The boy has since declined to return and distress over this is believed to have prompted the suicide. The deceased leaves a large family.

## SERIOUS CHARGES AGAINST A PASTOR.

A. J. Stokes, a negro and pastor of the First (colored) Baptist church here, was today bound over to the grand jury by Justice of the Peace Stuart on a charge preferred by Melissa Lambert, one of his flock. The testimony in the case was contradictory throughout, but the justice considered that there was probable cause. Stokes has been regarded as one of the foremost colored men in the state and occupies perhaps the most important colored pulpit. The case has occasioned an enormous sensation among the colored contingent. The negroes here regarded Stokes as the embodiment of perfection. His church has taken no action as yet.

## A SENSATION PREDICTED.

The Coroner Says That the Child Was Cruelly Murdered.

Birmingham, Ala., September 4.—(Special) The coroner's investigation into the death of little Tony E. Lee, a three-year-old son of Mr. Howe, the electrician, who died under very suspicious circumstances last Friday, will begin tomorrow and promises to be the most interesting one held in Birmingham in some years. The horrible and cruel story, as has been intimated, will be brought out in all its details. The Lee brothers of the family, who will be witnesses in the investigation, as well as several of the immediate neighbors of the Howes, who are the worst worked up set of people imaginable. Coroner Dusenberry says that there are no doubts that the most cruel murder was committed and the depositions as will be brought out at the investigation have never been made public. The Howes, two living sons of Mr. Howe, so it is stated, will corroborate some of the statements of the servant girl, Ellen Moore, now being held. The grand jury, which is now in session, will receive the case as soon as the coroner gets through with it. The community is watching the outcome of the case with much interest.

## After the Magistrates.

Birmingham, Ala., September 4.—(Special) A few days ago the city poll tax collector garnished a large number of the employees of the Louisville and Nashville Railroad Company for poll taxes. Considerable talk has been had over this over the action of the collector and a writ was issued against the various justices of the peace who issued the garnishments and also against Mr. Harris, the collector, charging them with violating the garnishment laws passed by the last legislature. Mr. Harris, who was called up yesterday before Judge French, a superior criminal court, and the defense put in his defense, which was this: He was a member of the bar, which was this morning sustained by the court. Mr. Harris was then discharged. One of the justices was fined \$20 and costs, one discharged and the cases against two others were continued. More than 200 employees of the railroad company were garnished.

## AT SELMA.

The Tax Assessor Concludes His Work Unknown Graves Found.

Selma, Ala., September 4.—(Special)—Tax Assessor Baker, of this county, closed his books yesterday and turned them over to the judge of probate. The taxable value of the property in the county foots up nearly \$30,000.

Mr. E. A. Niel, the newly appointed general freight and passenger agent of the Mobile and Birmingham railroad, returned today to Mobile. The general passenger office will be located in Mobile, while the general freight office will be in this city. No changes will be made in the forces at other places at present.

Laborers making an excavation for wagon scales at the International Cotton Oil Company's plant this morning found three graves supposed to have been the graves of Union soldiers buried about the close of the war.

## A Brakeman Killed.

Montgomery, Ala., September 4.—Perry Boy, a negro brakeman on the Louisville and Nashville road, fell from a train at McGee's Creek, here, tonight and broke his neck. He leaves a wife and several children here.

## New Ticket Agent.

Selma, Ala., September 4.—(Special)—Mr. R. M. Ellis today assumed the duties of city ticket agent of the Southern railway, vice Mr. Thomas Sharpe, resigned. Mr. Ellis came from Birmingham a few months ago, and is very popular.

## IN THE JURY'S HANDS.

Hayneville, Ala., September 4.—(Special) The Dickson-Sanderson case went to the jury at 12 o'clock today. At 9 o'clock they were still out. Judge Tyson's charge to the jury was pronounced to be fair and impartial and both sides announced their satisfaction.

Dickson, it will be remembered, shot and killed Mr. Sanderson, a storekeeper at Leesville, and his son, about a year ago, the night occurring over the trade of two dogs.

Moses Ben Delemos and Arthur W. Hall were admitted to the bar today before Judge Tyson.

**THE SECRET OF A BEAUTIFUL SKIN IS FOUND IN CUTICURA SOAP**

## TIRED OF TURKEY.

The Sick Man of Europe Provokes His Neighbors Very Much.

London, September 4.—The Post will tomorrow publish a dispatch from Paris saying that a Constantine letter is published in Paris containing what purports to be the text of a dispatch sent by Rustem Pasha, the Turkish ambassador to Great Britain, to the Turkish foreign minister, giving an account of an interview the ambassador lately had with the prime minister, Salisbury. The letter says:

"Lord Salisbury interrupted me, saying:

"I have only to repeat to you what I have said, namely, if your government refuses, we shall appeal to the powers. We shall demand the assembling of a congress and apply under article 61 for an international commission. Now I beg you to understand further, this will be the signal for the dismemberment of Turkey."

"I am writing now an account of this painful interview." **RUSTEM PASHA.**

Neither The Times nor The Graphic tomorrow will print the letter alleged to have been written by Rustem Pasha, though it was furnished to them by a news agency.

The other morning papers will print it reservedly.

None of them will make any comment and they obviously discredit the letter.

## GOOD TIME TO PUSH IT.

Poor Old Spain Will Probably Have To Pay Another Bill.

New York, September 4.—Another claim of as much as \$100,000,000 by the Mora Indians is going to be presented by the United States government before the government of Spain in a demand for the restoration of the property confiscated by the Spaniards during the last war from Martin Campillo and Agramonte, an American citizen.

Like the Mora claim, the case has been the subject of no small amount of correspondence between the two governments and it was rumored late in Havanna that Spain would make a demand for the payment of the amount made by the Spanish department at Washington. The Agramonte claim would be paid immediately after the settlement of Mora's.

One year ago the prospects of a settlement were so bright that a Spanish captain came to New York to meet Mr. Moore, and tried to buy Agramonte's claim.

Agramonte refused, stating that he had his case in the hands of the state department at Washington. The Agramonte

claim would be paid immediately after the settlement of Mora's.

One year ago the prospects of a settlement were so bright that a Spanish captain came to New York to meet Mr. Moore, and tried to buy Agramonte's claim.

Agramonte refused, stating that he had his case in the hands of the state department at Washington.

Seven months ago Mr. Agramonte died, leaving his daughters, one of whom is married to Señor Miguel de Morales, of this city. The claim is for the amount of \$100,000 with interest.

Anxious To Get Janus Out.

St. Petersburg, September 4.—It is stated that France and Russia are desirous to bring about at the earliest possible moment the evacuation of the Liao Tung peninsula by the Japanese and the Chinese. The Chinese will begin tomorrow and promises to be the most interesting one held in St. Petersburg in some years. The horrible and cruel story, as has been intimated, will be brought out in all its details. The Lee brothers of the family, who will be witnesses in the investigation, as well as several of the immediate neighbors of the Howes, who are the worst worked up set of people imaginable. Coroner Dusenberry says that there are no doubts that the most cruel murder was committed and the depositions as will be brought out at the investigation have never been made public.

ATLANTA, GA., September 5, 1895.

"Parity" and "International Money."

When the goldbugs come to talk about "international money"-claiming that gold is money of that sort-they fall back on the most inexcusable falsehood, and engage in an attempt to deceive the people. Gold is not international money in any sense of the word and is not accounted such in the daily transactions that take place between this country and Great Britain. A dollar of American gold is 90 cents less than a dollar in Great Britain. Ten thousand dollars is \$10,000, and in this fact lies the profit of shipping gold when the rate of exchange is \$4.90, instead of \$4.80 which is accounted as a par. But even at par, there would be a profit in shipping gold to Great Britain but for the freight rates and insurance. When the rate of exchange goes to \$4.90 that means that there is a premium in England on American gold.

A great deal is said about "parity," but the fact remains that, outside of this country, there has never been and never will be such a thing as "parity." It is a term invented by the banks to fool the people, and a great many intelligent people have been fooled by it. Can we have "parity" if we have free coinage? Let us ask the subsidized agents of Wall street; and the average citizen is compelled to take off his hat and admit that he doesn't know whether we would have "parity" or not. This is because the average citizen allows almost anybody to do his thinking for him.

Does "parity" mean prosperity? Let any citizen ask himself the question and then answer it in the light of history. We have never had "parity," so called, until Mr. Cleveland decided to abrogate the law and allow creditors to demand the money that they preferred. From 1865 to 1870 we had no "parity," whatever, and yet the people were very prosperous. There was no "parity" in the northern states from 1861 to 1870, and yet, in spite of the war, the people prospered and thrived. Why? Not because there was parity, for gold was at a premium, but because they had a supply of money-paper currency-to enable them to rapidly exchange their products and to increase their wealth.

Some people have been fooled by the term "parity," but we have good reason for believing that those who have been fooled bear no reasonable relation to those who see through the Wall street catch-word.

Up To Date in Kentucky.

All the information from Kentucky up to the present moment goes to show that the Watterson-Carlisle crowd made the biggest mistake of their lives when they made an effort to lead the democrats of that state into the republican camp by the goldbug route. They have failed, and failed most miserably. They have found that what they thought was their personal influence was due to the belief of the people that those men who had been trusted leaders, still maintained democratic principles and were willing to support them.

But this idea was dissipated when Mr. Watterson adopted the views of John Sherman and began to try to clean them down the throats of the democratic voters. It was dissipated when Mr. Carlisle went into the state and declared that he had always been a believer in the financial doctrines of the republican party as formulated by John Sherman. From that day to this the democrats of Kentucky have been getting together in great shape. While Watterson was writing editorials for the counting room, and while Mr. Carlisle was making the speeches dictated by the firm of E. C. Benedict & Co., the democrats of Kentucky were getting together.

This fact first became known when it was certain that General Wat Hardin, the most rampant free coinage democrat in Kentucky, would be nominated for governor. The people were for him, and they made it convenient to select delegates for him. He was so sure of his position that he did that which has not been done in any other southern state since the war. He arranged dates for a debate with Bradley, the republican "sound" money candidate, and, although the "sound" money arguments of Bradley were hooted down by those who had assembled to hear the discussion between the democratic and the republican candidates.

Seeing the undoubted purpose of the people, the goldbug democrats are making a hasty exit from the public stage, and are requesting the privilege of carrying a torchlight or an illuminated banner in the regular democratic procession. They are very much and very mild. They are no longer supposed to be carrying the state. They perceive that their little game of leading the

democratic voters of Kentucky into the republican party has failed, and they are now dropping into line behind General Hardin with a unanimity that speaks volumes for the weight and influence of the untried democracy of Kentucky.

Henry Watterson proposes to evade results by taking a trip to Europe; and we think beyond any doubt that the time has arrived for him to indulge in his European performance. In Europe may think better of his republican principles than they do in Kentucky—if not, he will have great difficulty in touching the button and expecting some one else to do the rest.

Hard Times in the West.

The Chicago Tribune has the following suggestive editorial paragraph:

The record of Sunday suicides in Chicago was most extraordinary. Seven persons—men and two women—made the attempt to end their lives, and five of them succeeded. The youngest of the unfortunate was of the age of eighteen. Ill health was the cause of one, insanity of one, domestic infidelity of two, melancholy of one and liquor of two. It is noticeable that four out of the seven used poison as the agency of self-destruction, the poisons being carbolic acid, laudanum, paris green and chloroform. The poison of preference of the suicides was the opiate of sleep.

endorsed by the community if they will so arrange it that work can be commenced on a new jail without delay so that it can be finished next year.

Let us not bother with bonds and elections. With \$51,000,000 worth of taxable property, Fulton county should take up her little floating debt of about \$50,000 and go right ahead with the new jail.

We feel satisfied from the action of our grand juries and the vote at our special elections that the people will be glad to see the commissioners take steps to erect a building that will be commodious enough for our criminal courts, with a jail in the rear that will be fully adequate to the demands of this generation and the next. The work must be done before long, and now is the best time for it, when labor and material are cheap, and our workmen are in need of employment. A ~~new~~ <sup>new</sup> \$51,000,000 worth of taxable property and 12,000 people should have an up-to-date jail, roomy, secure, and built under the best sanitary regulations.

It can be built with a slight increase of taxes, and the people will not feel the cost, especially after selling the old jail property. It is to be hoped that the commissioners will act in the matter at their next meeting.

A New Issue.

When congress meets in December both houses will be overwhelmed with petitions asking for the recognition of the belligerent Cubans.

These petitions are already being prepared in the west, and they will soon be circulated throughout the country. The New York World thinks that failure to act upon them will force the issue in the presidential campaign at a time when the majority of our people are undoubtedly in sympathy with the Cubans.

Before congress assembles we may expect to see the Spanish commanders exert every energy and all their resources to gain some decisive advantage over the plucky islanders.

The Race Problem in Illinois.

Following the official recommendation to remove the negro laborers from Spring Valley, Ill., because the citizens object to their presence and the white miners will not work with them, comes the news of further friction between the races at Centralia.

It seems that the town has two school buildings set apart for the blacks, as well equipped and with as competent teachers as the white schools have. This, however, does not suit the negroes and they demand admission to all the schools.

If they are kept out they propose to sue for damages. As an offset to this we find the whites threatening to refuse to employ negro labor.

A more vexing state of affairs could not be imagined, and it is to be feared that there will be trouble before there is a settlement.

Doubtless both races in Illinois are to blame. The whites have made the blacks dissatisfied with their present condition, and separate schools for the races are regarded by the negroes as an insult, officially branding them with the public badge of inferiority.

The northern people will find that they have a good many lessons to learn from the south. In this section the whites act kindly and justly with the blacks, and each race naturally prefers to be separated from the other in school, railway and other public accommodations.

The self-respect and pride of our colored people would cause them to demand separate accommodations in every way equal to those of the whites, if they needed them, but as they have already been provided, they are satisfied with them, and have no disposition to make unreasonable requests. The northern people will have to muzzle some of their cranky agitators or they will have no end of trouble in the near future.

We must have a force numerous enough to adequately protect every locality in the city day and night, and we need wide-awake, stalwart men, who will be more than a match for the average.

We yield to mistaken ideas of economy, and try to get along with a few policemen, we may expect just such burglaries, highway robberies, assaults and murders as have occurred elsewhere in promiscuous crowds not properly regulated. In justice to ourselves and our visitors we should be prepared to preserve order at any cost.

We have intimated that apart from the necessity of the case, it is a good thing during the fall and winter for the city to give employment to as many worthy home people as possible in necessary works. This idea should be extended to all public improvements, and if the city and county have anything in this line that needs to be done in the next few months the work should be pushed now in order to furnish employment to labor during the winter, and show the strangers within our gates something of Atlanta's enterprise and progress.

How To Get a New Jail.

The grand jury has wheeled into line with the preceding grand juries of the past ten years in regard to the jail matter.

The old jail comes in for its usual share of deserved condemnation. It is denounced on every hand as an unsafe, unsanitary, inadequate and insecure place for the detention of prisoners. These facts are so well known that they have not been done in any other southern state since the war. He arranged dates for a debate with Bradley, the republican "sound" money candidate, and, although the "sound" money arguments of Bradley were hooted down by those who had assembled to hear the discussion between the democratic and the republican candidates.

Seeing the undoubted purpose of the people, the goldbug democrats are making a hasty exit from the public stage, and are requesting the privilege of carrying a torchlight or an illuminated banner in the regular democratic procession. HARRIS.

uctor Breathes  
Morning.

is, D. D., one  
s in the south,  
home in Virginia

seventy years old  
school work for  
many positions  
an as an able in-  
national. At  
was president of  
at Roanoke,  
several weeks and  
was expected  
in the work of  
portion of his life,  
we received their

other of Colonel  
and for many years  
is well known  
ident of the La-  
Lesley Female  
for the State of  
Virginia. Military  
came to Geor-  
Sparta. From  
Grange college,  
stitution of learn-  
ing accepted the  
Martha Wash-  
on, Va. In 1888  
an young man  
to Staunton, years he was  
college at that  
until he put in  
age at Roanoke,  
the time of  
school was his  
and there was no one for her to consult  
but her mother.

An Unexpected Visitor.

Though she had mentioned her intentions  
to her mother, as she had not  
yet determined upon any more,  
Mrs. McCaslan received a visit one day  
from Mme. Taylor of New York.

In a very few words Mme. Taylor made  
known her errand. To Mrs. McCaslan's  
surprise it was to ask her if she would  
not be willing to sing at some of the thea-  
ters.

Mr. Taylor explained to Mrs. McCaslan  
that she had seen her coming out of a  
music store. Mme. Taylor was struck by  
the beauty of the young woman and at  
once inquired at the store and asked  
about her. McCaslan's natural attain-  
ments. The result was a call upon Mrs.  
McCaslan.

Mrs. McCaslan sang for Mme. Taylor.

who insisted that Mrs. McCaslan should  
sing during the exposition and asked per-  
mission to call every day in order that  
Mrs. McCaslan might sing with her. Encouraged by the enthusiastic compliments  
and favorable criticism of Mme. Taylor,  
Mrs. McCaslan announced to her  
mother that she had determined to go upon  
the stage. The result was that Mrs. McCaslan  
has been steadily at work and her voice is  
now in wonderful tone. It is a pure  
soprano of wide range and has the rare  
quality of easy modulation and the power  
of fine flexibility.

A Miss in Costume.

Her contract signed, Mrs. McCaslan has  
arranged the proper costumes and will sing  
at the same time every day.

She has spolied herself to offer and will have  
much more than her beauty to make her

stage career an unmistakable success.

At present Mrs. McCaslan does not  
know it known where she will sing first or  
what she will sing. She is devoting herself  
to the study of the art of singing and her de-  
but and if hard work means complete  
success she will surely attain it.

Those who have been fortunate enough  
to hear Mrs. McCaslan since she has

been of Atlanta  
during that  
days, who have  
stated to him  
yesterday morn-  
ing that she has  
done nothing  
and it is  
last.

arrived to New  
y will be in  
bound.

SESSIONS

TO GO ON THE STAGE

Mrs. Luzy Gartrell McCaslan Has Decided  
Upon This Step.

SHE IS BEAUTIFUL AND ACCOMPLISHED

Before Her Marriage She Was the Belle of  
North Georgia—She Is a Well-  
Known Society Woman.

studied under Mme. Taylor declare that  
her voice possesses both strength and sym-  
pathy to a marvelous degree.

Talk with Mrs. Luzy McCaslan.

It is very easy to describe Mrs. McCas-  
lan's personal appearance. But that  
falls far short of her personality. She is  
not only beautiful, but there is a magnetism  
about her that makes her truly attrac-  
tive. Her every movement is the in-  
carnation of gracefulness and her smile  
is bright and captivating.

When she was called upon she declined to  
enter into a discussion of her plans,  
though she admitted that she was under  
contract to sing and spoke of her costumes.

"I have always," she said, "felt a great  
desire to go upon the stage. I knew, too,  
how such a move would be regarded and I  
determined not to make it until it was  
absolutely necessary.

"I may make a failure, but I shall work

to prevent such an outcome for my ambi-  
tions are high and I have been told that my voice  
is remarkable and all that. It has been  
cultivated and that should count for much.

It is my intention to sing in both Italian and English dur-  
ing the exposition.

The announcement of the step that Mrs.

is well known in sym-  
metry and costume are always  
effective when in keeping with the style  
of the song. In what theater I shall first  
sing or what songs I shall have in my  
repertoire I do not care to say just at  
present. I am just now studying with  
the result that she is now, though she  
had not yet attained the graceful presence  
and charm of manner that is now hers.

It seems that Brotherton and George got  
pretty deeply in the spirit of some intox-  
icants and decided to take Brotherton's  
gun and shoot at the people in the vicinity.  
In the vicinity of Elliott and Rhodes  
street, the two young men got out in the  
street and called the attention of the citizens  
in the locality to the fact that they  
were there in an unusual manner.

Brotherton decided that it would be a  
good thing to try his marksmanship by  
shooting at the people in the vicinity.

Unfortunately Mrs. McCaslan has had  
all that wealth could place at her  
disposal. Her mother was a wealthy woman  
and when a girl Mrs. McCaslan had  
no wish that did not secure immediate  
gratification. When a mere child she was  
remarkably pretty and as she grew older  
the winsome airs of the sweet child grew  
into the fascinating charms of the young  
miss. Instead of childish prettiness she  
began to possess a wonderful beauty. At  
the age of eighteen she was hardly less  
beautiful than she is now, though she  
had not yet attained the graceful presence  
and charm of manner that is now hers.

Although she lived near Demarest, Ga.,  
with her mother, their home was one which  
commanded all the luxuries of a city man-  
sion and the young girl was sent to At-  
lanta for an education. While at school  
she developed a remarkable aptitude  
for dancing and her voice was a wonder-  
fully clear one while she was yet young.  
She possessed every advantage for a proper  
cultivation of her vocal talent and her  
voice improved as she studied. She pleased  
her parents that she studied at the  
Beethoven conservatory in St. Louis, where  
she graduated.

Her marriage was hardly a happy one.

It was a failure and she was

unfortunate to have her mother, Mrs. Luzy  
Gartrell McCaslan, as her husband.

Unfortunately  
Mrs. Luzy Gartrell  
McCaslan has  
had all that wealth could place at her  
disposal. Her mother was a wealthy woman  
and when a girl Mrs. McCaslan had  
no wish that did not secure immediate  
gratification. When a mere child she was  
remarkably pretty and as she grew older  
the winsome airs of the sweet child grew  
into the fascinating charms of the young  
miss. Instead of childish prettiness she  
began to possess a wonderful beauty. At  
the age of eighteen she was hardly less  
beautiful than she is now, though she  
had not yet attained the graceful presence  
and charm of manner that is now hers.

in the locality to the fact that they  
were there in an unusual manner.

Brotherton decided that it would be a  
good thing to try his marksmanship by  
shooting at the people in the vicinity.

Unfortunately Mrs. McCaslan has had  
all that wealth could place at her  
disposal. Her mother was a wealthy woman  
and when a girl Mrs. McCaslan had  
no wish that did not secure immediate  
gratification. When a mere child she was  
remarkably pretty and as she grew older  
the winsome airs of the sweet child grew  
into the fascinating charms of the young  
miss. Instead of childish prettiness she  
began to possess a wonderful beauty. At  
the age of eighteen she was hardly less  
beautiful than she is now, though she  
had not yet attained the graceful presence  
and charm of manner that is now hers.

It seems that Brotherton and George got  
pretty deeply in the spirit of some intox-  
icants and decided to take Brotherton's  
gun and shoot at the people in the vicinity.  
In the vicinity of Elliott and Rhodes  
street, the two young men got out in the  
street and called the attention of the citizens  
in the locality to the fact that they  
were there in an unusual manner.

Brotherton decided that it would be a  
good thing to try his marksmanship by  
shooting at the people in the vicinity.

At Sweetwater Park

Sweetwater Park is growing more  
populous than ever under the capable  
management of its proprietor, Mr. H. T. Blake.

Since last week there have been upwards  
of 100 new arrivals from different parts of  
the country, notably from New Orleans,  
La., and Savannah, Ga.

Tuesday night the guests participated in  
a game of progress, euchre, which was  
one of the most enjoyable features of the  
season. The number of players was greater  
and the prizes more handsome than ever.

Mrs. Augustus Wylie, Mrs. Eddie Bell, Mrs.

Mr. Er L. Peck, Mr. Clarence E. Moore, Dr. Sims, Dr. Arnold, Mrs. Annie Howard, Mr. and Mrs. Harry Schlesinger, and children, Mr. Spencer Marsh, Mr. John Prather, Mr. Sidels, Mr. Connott, Mr. Ray and others.

These parties form a very important  
part of the week's programme and are  
extensively patronized.

At the close of the game Mr. Lucius Perry Hills gave a most interesting ac-  
count of his travel and the adventures  
of his life, and embellishing them with  
numerous meritorious sketches from his  
own pen.

Among the well-known guests now here  
are Captain John Milledge, Colonel Isaac Boyd and family, Miss Elizabeth Howell, Miss Augusta Wylie, Mrs. Eddie Bell, Mrs. Peck, Mr. Er L. Peck, Mr. Clarence E. Moore, Dr. Sims, Dr. Arnold, Mrs. Annie Howard, Mr. and Mrs. Harry Schlesinger, and children, Mr. Spencer Marsh, Mr. John Prather, Mr. Sidels, Mr. Connott, Mr. Ray and others.

People You Know.

Mr. Storer, of Jacksonville, Fla., was in  
Atlanta last week. Mr. Storer, with his  
grandmother, Mrs. Gilmore, will spend the  
month of September at Lithia.

Mr. and Mrs. Kline, of Vicksburg, Miss.,  
are at Sweetwater Park hotel for the next  
month or two. Mrs. Kline has many  
friends in Atlanta who will be pleased to  
know of her presence in Georgia.

This morning at 9 o'clock in the Metho-  
dick church of Manchester, Miss Julia Cro-  
well will be married to Mr. Joseph Camp.

WHAT HE DID SAY.

Governor Bullock Replies to the Sug-  
gestion That He Made a Bull.

In a recent issue of The Boston Herald  
ex-Governor Bullock has this reply to some  
critics:

"The Editor of The Herald—a friend  
sent me to a clipping from a recent  
copy of your valued paper wherein you  
charge me with perpetrating an Irish bull  
by saying that the coming exposition at

The marriage of Mr. Lusian L. Knight and Miss Edith Nelson, which occurred last evening at the handsome residence of the bride's parents, Mr. and Mrs. L. B. Nelson, was a social event which will carry interest to scores of friends of these popular young people.

The wedding occurred at 8 o'clock and was attended only by the immediate families and close relatives of the contracting parties. It was, nevertheless, one of the prettiest weddings that has occurred in Atlanta in a long time, and the hour was happy and bright and full of joy.

Wurm's orchestra played the wedding march. The bridal party entered the spacious parlors from the stairway in the following order: Dr. R. L. Atkinson, who officiated; Mr. and Mrs. L. B. Nelson; Mr. Knight, the bridegroom and Mr. Paul Fleming, his best man. These were closely followed by the attendants in the following order: Mr. Remsen Crawford, Mr. and Mrs. W. W. MacLean and Miss Anna MacLean; Mr. Guy Mitchell and Miss Estelle Oakley; Mr. John J. Eagan and Miss Ida Richmond; Master Louis Skeeton and Miss Adelaide Nelson, the latter serving as the merry pages of honor, who sat on the silken cushion for the alms and dove.

Miss Anne Payne, maid of honor, came next alone, and then came the bride escorted by her father.

The bridegroom met the bride at the altar and the ceremony was conducted by Dr. Atkinson in a most impressive manner.

The parlers were lavishly decorated with palms and potted ferns and were a scene of rare beauty.

The presents were abundant and costly and filled in artistic array the entire side parlor.

Mr. Robert DeBelle left the city Saturday for a few days at West Point.

Archdeacon Walker, of the Episcopal diocese, spent Sunday at Tallapoosa.

Mrs. William R. Johnson and daughter, Miss Bessie, of Galveston, Tex., are in the city visiting their relative, Mr. B. B. Crew.

Mr. and Mrs. Robert F. Madison, all day from Southampton for New York.

Mr. Lucien Harris, well-known young Atlanta, left yesterday at noon for Canada. He goes to attend the golden wedding of his grandparents. Captain and Mrs. Pierre LaBoe, which will occur this month.

These young people are well known in Atlanta and in the social realms of the world. Captain Mr. Knight is one of the most gifted young writers in the south and is on the staff of writers of The Constitution, where, as a literary young man, he has built up an eminent record and reputation. He is one of the most brilliant orators in the south and has friends and admirers everywhere. He is a graduate of the State university and also a graduate of the law school of that college. He has all of the noble traits of character, a frank, genial, man to a man and is held in warmest and most affectionate regard by all who know him.

Miss Nelson is the charming daughter of Mr. and Mrs. Levi B. Nelson and is possessed of great and untempered womanly charms. She is a young woman of purest worth and character and possesses all of those endearing traits and qualities which go to make womankind the most wondrous of the Creator. Sweet and amiable, affectionate and true, her disposition, her courteous grace and dainty bearing entitle her to the highest claims of her sex.

The hearty congratulations of scores of friends are bestowed upon the happy young people in this season of promise and joy.

Governor Bullock Replies to the Sug-  
gestion That He Made a Bull.

In a recent issue of The Boston Herald  
ex-Governor Bullock has this reply to some  
critics:

"The Editor of The Herald—a friend  
sent me to a clipping from a recent  
copy of your valued paper wherein you  
charge me with perpetrating an Irish bull  
by saying that the coming exposition at

Atlanta would be an entering wedge to  
the sections of our country. What I did say was that an exposition  
should be opened at Atlanta which would be of great importance and wide influence, and that the tendency of its exhibits and the mindings of business men from all over the world would serve as a wedge to split the solid south. Now that we are happily relieved from outside interference with our domestic affairs our people will decide according to their interests and their judgment upon practical issues, as presented in this great object."

The conservative influence of a dollar gained in legitimate trade is world wide, and our section will not prove an exception. It is not an Irish bull, or a Mexican bull, but a solid, cold, United States fact.

"RUFUS E. BULLOCK."

"August 13, 1895."

SOUTH SIDE JUSTICES.

## MOVING WITH A RUSH

Great Activity Shown in Every Part of the Exposition.

## BUSY SCENES ON THE GROUNDS

The Exhibits Are Going Up in the Agricultural Building with Commandable Rapidity.

What an amazing change a few days of sunshine have made out at the exposition grounds!

Every day, as it goes by, shows what remarkable workmen, guided by experienced minds, can do if only the elements are favorable and the gods of wind and rain do not shower their wrath upon the place.

Workmen, here, there, and everywhere, are rolling the roads of the plaza, laying the track for the great grading of the uneven ground, as everywhere the buzz of the men and the ring of the hammer could be heard.

In the agricultural building there are now many exhibits set up and others in course of rapid installation.

The exhibit to be made by the state of Arkansas will be one of the most admired

CHIEF FELLER DURING OFFICE HOURS.

on the grounds, with its fanciful and artistic designs worked in the cereals of the state and cotton in every shape from the manufactured product even down to the hulls and stems. The display is really a wonder, and people stand around for hours watching the workmen as they form the many intricate designs used in the decoration.

One of the most unique parts of the exhibit of the Seaboard Air-Line is a relief map showing the country through which the line runs from Farnham, Va., to Atlanta. To more fully demonstrate the passage of the line here there will be run across the map miniature trains of cars worked from the back by means of a series of pulleys. This train will start from Farnham and travel to this city, where it will run into a facsimile of the union depot here.

Another interesting feature is a miniature cotton gin which will be worked and the cotton fall into a glass lint room in order that the crowds from the north may fully understand the methods used.

Another attractive exhibit in the agricultural building is the display of the H. Hammond Tobacco Company, and another is the booth of the R. J. Reynolds tobacco firm. The N. K. Fairbanks Company has a very artistic booth for the display of its cotsolene. It is of Roman design and the columns are of Roman columns supporting the frieze. The entire fair is in silver with gold trimmings, and forms one of the most elaborate booths in the building.

One of the most unique booths yet erected in any building on the grounds is also in the agricultural building and is in course of construction. It is the booth for the exhibit of the Lake Oil Manufacturing Company, of Cincinnati, O., and it adds an additional interest in the fact that the designer of it is a lady. Her name is Mary E. Trivets and she comes from the same city.

Besides Miss Temple, who is doing the decorating of the women's building, the lady above mentioned is the only other on the grounds and her design equals and probably excels many others on the grounds.

The booth will be flooded with the bungs of whiskey bottles, which will be stacked with the bottoms of whiskey bottles from light green to a warm amber, and small jeweled disks will be interspersed throughout the entire sides and roof. There will be a network of ropes from which will be hung pendants of stones cut artistically. Also, the eaves that overhang the booth will be placed sheafs of corn gilded and altogether the effect will be that this firm will be a most attractive one.

Over in the big government building everything was bustling activity. Workmen hurried to and fro putting exhibits in place and packing goods from the cases sent by Uncle Sam.

There is certainly no building on the ground where the system that prevails is so well ordered as here. Every gentleman that has charge of a particular department superintends the placing of the exhibits and the rapidity with which the work is done is the best result of this system.

The aquariums of the fisheries exhibit are all finished and in several of them fish have been placed. There are some varieties of fish and ideas and care.

The effect produced in many of the aquaria is most pleasing. The rocks are arranged in such a manner that the water from the front is that of a cave with its overhanging arches of rough hewn rock.

The decoration of that department of the government exhibit is not only well done but it is really a work of art and reflects much credit upon Decorator Fauss who

has shown himself to be an artist of high ability.

Another part of the decoration that reflects much credit upon the artist is that of the naval exhibit, which is being done by Mr. Clark. The friezes are of suggestive design and are replete with figures of dolphins, sea monsters and other wonders of the deep. Between the windows there are paintings of several of the noted ships of the United States navy, among them being the monitor Atlanta and the old battleship Kearsarge.

Mr. Ravenel, who has charge of the installation of the fish exhibit, is here and expects to begin the prosecution of his work as soon as the tanks today.

One executive member of the fair, who has been here for several weeks looking after the building and especially the exhibit to be made by the treasury department, left yesterday for Washington. He will return later to look after the exhibit.

The large oil portraits of the secretaries of state, which have arrived at this exhibit, have arrived and are already hanging along the side of the departmental space. They form a most attractive background for this exhibit and are said to be unequalled.

The lightning exhibit is also most interesting and shows everything from lighthouse down to the minutest detail of the service. One old fellow who was looking on with deep interest asked one of the attendants if the large fog bell in this exhibit was the liberty bell, but he was told it was not and went away disappointed.

The busiest man about the building is Secretary Adams of the executive board. He is in his office on the second floor and down on the floor ever and anon keeps his host of clerks busy every moment of the day answering correspondence and following in the matters pertaining to the arrangement of exhibits.

All visitors are denied entrance to the building and the rule is most rigidly enforced by Superintendent Brown and his corps of assistants.

If the exhibit of the Plant system is not representative out at the grounds, Colonel Elliot that gentleman is forever inventing some new feature that will add to the attractiveness and novelty of the exhibit.

One of the most interesting features of the exhibit is a relief map showing the country covered by the Plant system, and is not only demonstrating the enterprise of the road, but instructive to those who are not familiar with the southern peninsula of Florida.

Colonel Elliot is a great admirer of young America and he has not forgotten him in the novelties offered. He has in the display a master key which weighs one hundred and six pounds, and he is going to give a realistic demonstration of the manner in which the fish are caught. A line is to be stretched across the building and from it is to be hung the fish. On the relief map exactly at the spot where the fish was caught will be placed a rod and a red hook is to be fixed in the mouth of the tarpion.

"They never saw a gas stove," said he. "The stove will be great enough in itself for them, without the added embarrassment incident to their unfamiliarity with the stoves."

It was explained to President Chappell that neither the use of wood or coal would be allowed in the exhibit buildings, and the commissioners agreed to the same.

"Send them up to my house, Mr. Chappell said to Major King, "and let them stay while they are practicing on Mr. Chamberlin's gas stove."

The propositions of the two gentlemen were applauded. The board then decided that the school girls could not be permitted to use either wood or coal in their stoves on account of the nuisance that the smoke would create and because of the great risk involved.

President Chappell came all the way from Milledgeville to have the board decide otherwise. He had been notified that the girls would have to use gas stoves. They were not to use the sort of fuel. He explained to the board that he had gone to make an interesting display of the cooking department of his school and that it would be in charge of several of the girls who would give a practical demonstration of cooking.

"They never saw a gas stove," said he. "The stove will be great enough in itself for them, without the added embarrassment incident to their unfamiliarity with the stoves."

President Chappell came all the way from Milledgeville to have the board decide otherwise. He had been notified that the girls would have to use gas stoves. They were not to use the sort of fuel. He explained to the board that he had gone to make an interesting display of the cooking department of his school and that it would be in charge of several of the girls who would give a practical demonstration of cooking.

"They never saw a gas stove," said he. "The stove will be great enough in itself for them, without the added embarrassment incident to their unfamiliarity with the stoves."

It was explained to President Chappell that neither the use of wood or coal would be allowed in the exhibit buildings, and the commissioners agreed to the same.

"Send them up to my house, Mr. Chappell said to Major King, "and let them stay while they are practicing on Mr. Chamberlin's gas stove."

The propositions of the two gentlemen were applauded. The board then decided that the school girls could not be permitted to use either wood or coal in their stoves on account of the nuisance that the smoke would create and because of the great risk involved.

## Three Ways.

Once upon a time three philosophers determined to investigate the curious creature—the camel. The Englishman went into a great library to find out what had been written about the beast; the German locked himself up in his room, lit his pipe and evolved a conception of the camel from his inner consciousness; the Frenchman took a thousand-mile trip to the desert to SEE it. There are three ways of finding out our low prices on watches, silverware and cut glass. We recommend the Frenchman's way. Any person who contemplates a purchase of these goods will find it to their interest to SEE what we offer and get our prices before buying. J. P. Stevens & Bro., 47 Whitehall street, Atlanta, Ga. We also engrave wedding and visiting cards.

THE STREET CAR  
Controversy

Will not induce us to advance the price  
of groceries during the exposition. We will  
make the prices so low that it will offset  
the advance in street car fare. Buying and  
selling for cash will do the business we  
are offering.

Twenty pounds good raisins for \$1.  
Our Peachtree Patent Flour reduced 25  
cents a barrel.

New York Cream Cheese 15 cents pound.  
New Edam and Swiss Cheese; a few  
cases Sardines left at 3 cents a box.

We carry the finest line of fancy groceries  
in Atlanta. Our cash prices average 25  
per cent less than any other houses.  
Special prices to hotel or large orders, no  
charge for boxing or shipping goods.

Pure Cider Vinegar 25 cents per gallon.  
Ten bars good Laundry Soap for 25 cents.  
Elgin Creamery Butter 25 cents pound.

## WILL SPIN YARNS.

A New Cotton Mill Has Been Established  
at Douglasville.

## THE HEADQUARTERS WILL BE IN ATLANTA

The Eden Park Cotton Mill Company Has  
Been Organized and Will Be in Operation  
in Sixty Days.

Another new enterprise has been added  
to Atlanta's long list of industries.  
The Eden Park Cotton Mill Company, located at Douglasville, but with general  
offices in this city, has just been established and will be in operation of the next sixty days.

At the head of the company is Colonel  
Simon Baer, of Cincinnati, one of the leading  
cotton mill men of the country. Associated with Colonel Baer are some of the best citizens of Atlanta and of Douglasville. Though the plant will not be located in the city, Atlanta will receive the direct benefits and Atlanta merchants will be interested in the success of the undertaking. The plant of the new company  
which has just been organized, is placed at \$50,000 and will be increased in a short  
time after the plant is put in operation to \$100,000. The majority of the stock of the  
company will be held by Colonel Baer and District Attorney Joe James of the United  
States circuit court.

The company was formerly located at Cincinnati, where was also the plant, but  
Colonel Baer was attracted to Atlanta and  
some time ago determined to move his property to the south, provided he could  
interest southern capital. Colonel Joe James signified a willingness to become interested in the company, and he and Colonel Baer were induced to make only  
a short time before arrangement was made  
for the establishment of the factory at Douglasville. The papers were drawn up and the deal made. For the present  
the plant will be operated under the charter under which it was operated in the  
city of Cincinnati, but just as soon as all  
the completed application for char-  
ter will be made out the new company  
will be duly incorporated.

The plant will be one of the best in the  
country and will have in operation 3,000  
spindles of the most improved pattern.  
The manufacture of hosery yarns will be  
the principal output of the mill, and ship-  
ments of the mills of the east will be made.  
The salesmen to be brick and will be  
substantial and permanent.

"Atlanta is just the place for this kind  
of industry," said Colonel Baer, "and I  
have determined to move my interests to the city and invest here in the south.  
I am confident I have made no mistake in  
my selection of territory, as I have been  
working at it for several years. We  
will make only brick and white hosery  
yarns, which will be shipped throughout  
the entire country. We have at present  
many orders to fill, and as the business  
has been established for many years, I am  
quite sure our business will be brisk  
from the very start. The first goods we  
will manufacture will be shipped to India,  
and we have an order for a large ship-  
ment to be made to that point. The plant  
will be in operation within the next sixty  
days and all the machinery will be run-  
ning."

The officers of the new company are:  
Simon Baer, president and general manager;  
Joseph S. James, secretary and  
treasurer; Albert E. McDonald, assistant  
treasurer; and T. C. Dunn, assistant  
secretary. The office of the company  
will be located in Atlanta and all  
shipments will be made from this point.

Colonel Baer is contemplating running  
an electric line from this city to Douglasville in the near future, over which  
both passengers and freight will be carried.  
Colonel Baer is a native of Cincinnati,  
and besides being the owner of several  
cotton mills is interested in railroads in his old home. He will in future  
be a citizen of Atlanta and will bring his  
family to the city in a few days.

## TONIGHT'S CONCERT.

Splendid Programme Arranged at the  
Second Baptist Church.

There will be a delightful musical and  
concert given in the basement of the  
Second Baptist church tonight for the benefit  
of the General Hospital of the exposition  
and the "Gideons."

One of the rarest musical programmes  
of the year has been arranged. There will  
be reading, vocal and musical solos and  
recitations.

A glance at the names of those who will  
participate is assurance enough that it will  
be a delightful and rare entertainment.

The entertainment being for the benefit of  
the hospital at the exposition grounds,  
it deserves the assistance of every one,  
as it will be a free nursery for those  
who happen to be taken sick while  
on the grounds.

The excellent programme that has been  
arranged is:

Violin solo, selected—Mr. William Crenshaw;  
accompanist, Miss Alice Cox.

Vocal solo, "For the Sake of the Past"—  
Miss Sarah Manley Smith, accompanist  
in piano.

Piano solo, selected—Miss Alice Cox.

Violin solo, Andante and Allegro, sev-  
enth concert—Mr. Thad Ackley.

Vocal solo—selected—Mr. Samuel Burk-

Rading, selected—Mr. Julian Harris.

Vocal solo, selected—Mr. John J. Sarnoff.

Violoncello solo—Mr. W. Scholtz.

Piano solo, selected—Signor Randerger.

The concert will begin at 8 o'clock sharp  
and everybody is invited.

## ROOF GARDEN.

The Top of the Forestry Building a  
Most Desirable Place.

The Aragon roof garden on top of the  
forestry building at the exposition grounds  
is a most delightful place.

The garden is now being kept in place  
under the management of Mr. Frank Bell.  
All who have seen the forestry building  
will be struck by the great beauty of  
the electric fountain and, in fact,  
a splendid view of the entire grounds and  
buildings from this garden.

The choicest refreshments will be served  
every day and night at popular  
prices. The "Aragon" management  
have a special arrangement with the  
choicest stock of miniature brooches,  
silky novelties, new china, sterling silverware,  
cut-glass and last, but not least, the finest  
cigarette and cigar service.

No doubt thousands of people will return  
to their homes from visiting the exposition  
and many will wish to visit the  
Aragon roof garden on top of the forestry  
building.

Decorations.

Flags, decorations, silk bunting and  
small flags. Use Satin shields and  
patriotic flags at wholesale and retail.  
Buy now and avoid the rush.

Second-Hand School Books.

At reduced prices at John M. Miller's,  
33 Marietta street.

Sept-17

MOTHERS' RELIEF.  
(Women's Comfort.)

Used during pregnancy, confinement  
is guaranteed to produce a painless and  
quick labor. Price \$1 per bottle, at drug-  
ists.

Supplied by Cotton States Medicine Co.,  
Atlanta, Ga. 23 Peters street.

When the blood is impure it is fertile soil  
for the disease germs and such  
troubles as scurvy and salt rheumatism.  
Hod's Sarsaparilla removes the danger by  
purifying the blood.

Choice LeConte Pears.

Mr. J. D. Reichert, of Smithville, Ga., is  
shipping from his orchards at Smithville,  
Ga., a large lot of pears. Parties desiring  
choice fruit will find these extra fine at  
Legg & Campbell's.

## PARADE OF THE FIFTH

Big Preparations for the Exercises on the  
Opening Day of the Exposition.

## COLONEL CANDLER AND HIS STAFF AT WORK

of the Military Companies in the State  
Will Possibly Be in the Parade—The  
Capitol City Guard Off.

The Fifth regiment of Georgia, after  
the decision of the Gate City Guard to  
withdraw from the exercises on the opening  
day of the exposition, is preparing to  
make one of the most elaborate military  
displays on September 15th ever seen in  
the south.

The staff and field officers of the regi-  
ment were in consultation yesterday, and  
plans were devised whereby not only all  
of the out of town companies belonging  
to the Fifth, but other regiments throughout  
the state can be brought to Atlanta  
on the opening day.

Colonel John Candler, Major Wilcoxon  
and Major Kendrick, the local officers of  
the Fifth, have taken the matter in hand  
and assisted by Colonel Osborn, Inspector  
general of rifle practice, and Lieutenant  
Brown, with other officers, are making  
preparations to eclipse all former parades.

Up to this time the regular troops have  
held off and have not shown any intention  
to participate in the exercises of the 15th.  
In fact, they had tacitly determined not  
to have anything to do with the parade  
if the Guard should enter. When it was  
made known, however, that at the meeting  
of the executive committee Tuesday evening  
the Gate City Guard had definitely  
decided not to enter the exercises of the  
15th, the officers of the Fifth arranged at  
once to have a consultation in regard to  
the parade of the regular troops.

They have now decided to join in and  
they are going in a way that will bring  
great glory to them and to the military  
of the state.

They're Off on Foot.

The boys of the Capital City Guards  
are waiting in restless anticipation for the  
start of the day, when, rifle in hand  
and knapsack on back, they shall march from  
the limits of Atlanta and head for Chattanooga.

All details for this great trip have been  
arranged. The company will leave here  
on the 10th, arriving in Chattanooga on the  
15th. They will carry with them all  
necessary provisions, and the rations for  
the men will be stowed away on his  
back.

This unique experiment of real military  
life will attract attention all over the  
continent, and Captain Hewitt and each  
man that makes the tramp will come from  
the trip famous.

How They Rejoice.

There was great rejoicing among the  
local military organizations yesterday  
when it was learned that the Savannah  
and Vicksburg regiments, the 1st and 2d  
Militia and the 1st and 2d Engineers  
will be so successful in the target  
shoot at Seneca, N. J.

Inspector General George is at the  
head of the rifle practice in this state,  
was busy receiving congratulations all  
day over the triumph of his department.

Major Callaway will return tomorrow.
